

Berrien County
Mathematics & Science Center

June 18, 2014

Dear Parents & Sophomore Students:

For the past several years, the sophomore class at the Center has visited the Smoky Mountains during the first semester. We have just completed arrangements for the next trip. This special field trip provides an excellent follow-up to our study during the freshman year. It also provides our students an opportunity to truly bond as a class.

The Great Smoky Mountains Institute, at Tremont, has been providing educational programs since the 1960's. Their staff of Naturalists will provide the programming for our visit. Activities include hiking, exploring the ecology of the Smokys, studying native plants and animals, and enjoying a weekend with nature. You can visit their website at:

<http://www.gsmit.org>

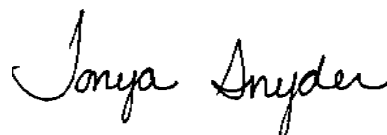

On Thursday, July 10 at 7:00 PM in rooms B/C at the Berrien RESA Administration Building (located across the street from Baguette de France/Trinity Lutheran Church), we will host a brief program to describe the trip in detail and answer any questions. Both parents and students are welcome to attend. If you are unable to attend the meeting, you can view the powerpoint presentation online at bcmssc.org.

I hope all of our students will be able to attend. We have had excellent attendance in the past. Please phone our office if you should have any questions or concerns.

Sincerely,

Kevin Clark, Director
Mathematics & Science Center

Tonya Snyder, Coordinator
Mathematics & Science Center
